Statistics for Erasmus+ in the United Kingdom 2014-2018

The Erasmus+ UK National Agency publishes regular statistics reports including the amount of funding awarded and the number of projects across the UK and by country. Currently the reports cover the five years from the start of the Erasmus+ programme in 2014 to 2018.

On our statistics webpages you can find more information on the figures for the UK along with reports on England, Northern Ireland, Scotland and Wales, as well as figures for additional centralised funding to UK organisations, which is distributed by the European Commission’s Executive Agency. We also publish UK-wide reports and information for each of the five Erasmus+ sectors – higher education, vocational education and training, schools, youth and adult education.
