CREATING OPPORTUNITIES FOR THE UK ACROSS EUROPE

What is TCA?

Transnational Cooperation Activities (TCA), enable Erasmus+ National Agencies (NAs), to collaborate and share best practice across Europe, to improve the quality and impact of the Erasmus+ programme. TCA helps to capacity-build potential and existing beneficiary organisations. This is by promoting training, support and contact seminars that address issues in education, training and youth in an integrated and cross-sectoral way.

TCA activities include:

- Training, support and contact seminars for potential participants in the Erasmus+ Programme.
- Thematic activities linked to objectives, priority target groups and themes of the Programme.
- Evidenced based analysis of Programme results.
