Who is this guide for?

This step-by-step guide is to help UK Schools complete the 2019 Erasmus+ Key Action 1 Learning Mobility of Individuals application form. The 2019 Application form will be made available on our website.

We recommend that you consult the following documents and support to help you complete your application:

- [2020 Programme Guide](#)
- [YouTube Support Videos](#)
- [European Commission's Technical Guidelines;](#)
- [Erasmus+ Helpline](#)

Plan your project

Please use this section of the guide to help you plan your 2020 Key Action 1 School Staff Mobility project.

You should comply with UK legislation and consider relevant national legislation in the country of each partner. In the UK, this includes the Data Protection legislation, and legislation/statutory guidance relevant at any time to the safeguarding and protection of children and vulnerable adults (please consult and adhere to the British Council Child Protection Policy).

Please Consider the Foreign & Commonwealth Office's travel advice for the countries to which you will travel or send participants, or travel through en route. We will ask you to observe their guidance: <https://www.gov.uk/foreign-travel-advice> and may not fund mobility in cases where the FCO advises against it.

Introduction to School Staff Mobility

Key Action 1 provides opportunities for individuals to improve their skills, enhance their employability and gain cultural awareness. UK Schools can apply for staff mobility funding to support the professional development of teachers, school leaders and other school education staff. A school or national mobility consortium can apply once per selection round. Organisations can submit multiple applications if those applications are different, i.e. an application as an individual organization and an application as part of a substantially different consortium.

UK Schools can apply for funding to support any of the following mobility activities:

- Teaching assignments:** allows teachers or other school education staff to teach at a partner school abroad;
- Structured courses or training events abroad:** supports the professional development of teachers, school leaders or other educational staff;
- Job shadowing:** provides an opportunity for teachers, school leaders or other school staff to spend a period of time abroad in a partner school or another relevant organisation active in the field of school education.

Mobility activities must be carried out abroad in another Programme Country. Each project can last from one to two years. Activities can last from two days to two months, excluding travel days and the minimum two days must be consecutive.

Eligible Organisations

The following types of UK organisations are eligible to apply for Key Action 1 School Staff Mobility funding:

- A school sending its staff abroad (individual application);
- The coordinator of a national mobility consortium (consortium application).

Individuals cannot apply directly for a grant.

Please see the eligible organisations list on the [eligible schools and authorities](#) page of our website. For more information, please see the specific eligibility criteria for Schools Key Action 1 projects on pages 65-67 of the [2020 programme guide](#)

If you have any questions about your eligibility, please [contact](#) us.

Consortium Applications

Schools, local or regional school authorities and school coordination bodies can submit an application to coordinate a Key Action 1 mobility project on behalf of a number of schools. The Consortium coordinator is responsible for the project management, budgeting and reporting.

A consortium must comprise at least three organisations (the coordinator and at least two schools). If the coordinator of the consortium is a school authority or coordination body, the schools in the consortium must be organisationally linked to the consortium coordinator. If the coordinator is a school, justification for

forming the consortium should be included in the project application, explaining the reasons for the formation of the consortium and the capacity of the coordinator to lead the project.

A school coordination body can include:

- Local Authorities and councils with a role in school education
- Academy Trusts
- Local Authority Consortia
- Northern Ireland Education Authority Regions
- General Teaching Councils
- School Federations
- Teaching School Networks
- Teacher training faculties of universities

This list is not exhaustive, if you are unsure as to whether your organisation would be eligible to act as a Consortium Coordinator please [contact us](#).

All members of the consortium must be based and registered in the UK and need to be identified at the time of applying for a grant. This means that every organisation in the proposed consortium needs to be registered on EU login and have its own individual OID.

There is no cap on the number of members in a consortium application. The Application Form will allow the applicant to add as many organisations as needed.

Project duration

Mobility projects for school staff can last between 12 and 24 months, the project start date must fall between **1 June 2020 and 31 December 2020**. In all cases, all projects must end no later than **31 December 2022**. You should choose the duration at application stage, based on the objectives of the project and the type of activities planned.

Important note: All Erasmus+ project activities must take place between the project start and end dates. Any activity that falls outside the project start and end date will be deemed ineligible for funding.

Prepare to apply

Please read this section carefully when preparing to apply. It is important to complete all steps properly to ensure your application is eligible.

Register your organisation on the Organisation Registration System and obtain an Organisation ID

Organisations must register through the [Organisation Registration system](#) for Erasmus+ and European Solidarity Corps and receive an Organisation ID. Organisations that have a PIC and have previously applied for funding in the Erasmus+ or European Solidarity Corps programmes through the National Agencies should not register again – they will be assigned an Organisation ID automatically.

Upload Financial Identification Form and Legal Entity Forms to the Organisation Registration System

Important Information: If your organisation is already registered and has an Organisation ID, you will still need to upload new legal and financial identification forms for 2020.

You must upload a completed Legal Entity form and a Financial Identification form for 2020, as well as supporting legal status document or bank documents to your OID. Without these documents, your application may be ineligible. You can download the two forms via the links below. Please select the forms in English by using the hyperlinks next to the  symbol:

- [Financial Identity Form](#)
- [Legal Entity Form](#)

For Consortium led applications:

The Consortium Coordinator, as well as the schools participating in the Consortium must be registered on the European Commission’s Participant Portal individually. Each school must have its own Organisation Registration. All schools must be identified in the application form using their OID.

Understanding the assessment criteria

It is essential that you understand how your application will be assessed in order for you to write a high-quality Key Action 1 application. The assessment of applications is carried out in two stages:

- A formal eligibility check undertaken by the UK National Agency staff; (against the eligibility criteria published in the Programme guide).
- A qualitative assessment undertaken by external expert(s) who will have been selected based on their experience and knowledge of the Schools sector.

Experts will assess each section of the application form against the following criteria:

<p>Relevance of the project (maximum 30 points)</p>	<ul style="list-style-type: none"> • The relevance of the proposal to: <ul style="list-style-type: none"> – The objectives of the Action (see section ‘What are the aims and priorities of a mobility project?’). – The needs and objectives of the participating organisations and of the individual participants as specified in the European Development plan. – The extent to which the proposal is suitable for: <ul style="list-style-type: none"> – Producing high-quality learning outcomes for participants; – Reinforcing the capacities and international scope of the participating organisations.
<p>Quality of the project design and implementation (maximum 20 points)</p>	<ul style="list-style-type: none"> • The clarity, completeness and quality of the project proposal (preparation, implementation of mobility activities and follow-up) • The consistency between project objectives and proposed activities; • The quality of the European Development Plan of the applicant organisation; • The appropriateness of measures for selecting and/or involving participants in the mobility activities; • The quality of the practical arrangements, management and support modalities. • In case of national mobility consortia: appropriateness of the

	<p>consortium composition, potential for synergies within the consortium, and the capacity of the coordinator to lead the project;</p> <ul style="list-style-type: none"> • The quality of the preparation provided to participants; • The quality of arrangements for the recognition and validation of the participants' learning outcomes, as well as the consistent use of European transparency and recognition tools.
<p>Impact and dissemination (maximum 30 points)</p>	<ul style="list-style-type: none"> • The quality of measures for evaluating the outcomes of the project; • The potential impact of the project; <ul style="list-style-type: none"> – on individual participants and on the participating organisations, during and after the project lifetime; – outside of the organisations and individuals directly participating in the project, at local, regional, national and/or European levels; • the appropriateness and quality of measures aimed at disseminating the outcomes of the project within and outside the participating organisations.

Organisational and financial capacity

What is organisational capacity?

Your organisation will need to demonstrate that it has capacity to successfully deliver Erasmus+ projects and administer them in accordance with the Grant Agreement with the UK National Agency and the programme guide published by the European Commission.

For more information on operational capacity, see page 254/256 of the 2020 Programme Guide.

What is financial capacity?

All Erasmus+ projects are co-funded and Erasmus+ grants will not cover all costs – the grant is **intended to be a contribution towards** the cost of project implementation and mobility activities. Projects must be delivered and reported using only a pre-financing payment or an advance.

Please note, a formal financial capacity check does not apply to public bodies or international organisations, or where the grant request is less than 60,000 euro (see the section "selection criteria" in Part C of the 2020 Programme Guide). You will need to provide up to date accounts, uploaded onto your Organisation Registration system, in order for the financial capacity check to be completed.

Important note: Erasmus+ grants should be used to deliver projects and are not intended to fund the running of an organisation. Erasmus+ grant should represent no more than 50% of an organisation's annual income.

What kind of bank account does my organisation need in order to receive Erasmus+ funding?

All grants are paid in Euros. It is strongly recommended that you use a Euro bank account to avoid exchange rate losses. It is important that the name of your bank account matches the name of your organisation so that we can make payments to you without delays. If this is not possible please contact the National Agency to discuss your options.

Child Protection

If your application is successful, you will be asked to complete a Child Protection checklist before you are issued with a grant agreement. Failure to comply with this checklist could mean that the offer of funding is withdrawn. The checklist will detail the legal and regulatory requirements that must be adhered to when working with children [those aged under 18] directly or when delivering work that has an impact on children. All requirements must be in place and the UK National Agency has the right to request a copy of all Child Protection documentation at any time.

Part II: Application form

Step by step Guide to completing the application

In order to help you put together a good quality application, we have developed a step-by-step guide to assist you in completing the online application form.

It is important to note at application stage that, if approved, you will be contractually bound by the UK National Agency to deliver your project in line with the information provided in your application form. **No deviations from this information will be permitted**, as this could call into question the assessment result. Erasmus+ provides a number of online platforms with useful information and tools for organisations active in education and training, including eTwinning, School Education Gateway, EPAL (Electronic Platform for Adult Learning in Europe), and the Erasmus+ Project Results Platform. If relevant for your organisation's field of activity, have you used or do you plan to use any of these platforms for preparation, implementation or follow-up of your project? If yes, please describe how.

Please explain how you plan to use any of the following platforms for preparation, implementation and/or follow-up of your project:

School Education Gateway

The European Commission's [School Education Gateway](#) is a portal for schools to use for Erasmus+ applications and partner-finding. Before applying for Erasmus+ funding, schools can register on the School Education Gateway to find staff professional development and strategic partnership opportunities for Key Action 1 and Key Action 2 Erasmus+ activities.

The School Education Gateway portal works alongside [eTwinning](#) and users can login in to it using existing eTwinning username and password details.

School Education Gateway has two important tools for schools involved in Key Action 1 school staff mobility activities:

- a [course catalogue](#) for finding staff training opportunities;
- a [mobility opportunities](#) database for finding and posting job shadowing, observation and teaching assignment opportunities.

eTwinning

[eTwinning](#) is a free online community for schools in Europe which allows you to find partners and collaborate on projects within a secure network and platform. It provides advice, ideas and tools to make it easy for schools to set up partnerships and start collaborative projects in any subject area.

In connection with a mobility project, eTwinning allows you to:

- find potential partners/receiving organisations abroad and work together with them before applying for funding, in order to improve the quality and impact of the planned projects;
- use the available project tools to implement more strategic projects and better exploit the inputs from partners;
- prepare the outgoing staff, for instance through communication with the receiving organisation (learning more about the receiving country and receiving organisation, discussing and agreeing on activities to carry out), participate in online learning events related to their mobility; and
- cooperate intensively among all schools involved during and after the staff mobility project.

No formal application is required to use eTwinning, all schools need to do is register in the [eTwinning portal](#).

If you need any help, have look at the [workshops and support](#) available in the UK or [contact the UK eTwinning team](#) at the British Council.

Important note: If you are going to use eTwinning as part of the project, please specify how and what value it will bring to your project.

EPALE

EPALE is a multilingual open membership community for teachers, trainers, researchers, academics, policy makers and anyone else with a professional role in adult learning across Europe. Community is at the heart of EPALE. It is set up around the sharing of content related to adult learning, including news, blog posts, resources, and events and courses. Members of the community can engage with adult learning colleagues across Europe through the site's features, including the forums and by commenting under blogs. You can also interact with your peers across Europe through the thematic areas which provide structured content according to topic. You can find projects and make professional connections using the partner search repository. If you are using EPALE as part of the project please specify how, focusing on the value that it will add to your mobility activities and the impact they will have. For more information please contact the EPALE UK National Support Service.

Activities

This section asks you to provide information about the main activities of the project, including the amount of EU grant that you are requesting.

Activities Description

Please provide a summary of staff mobility activities you plan to organise, including the content these activities should cover and an estimated timing when the different activities will take place.

Please provide a chronological outline of all of your planned activities and explain the objectives and content of each one. Provide as much detail as possible, e.g.

- Where will staff go? – provide the name of the city or town.
- What will staff do whilst they are abroad? – detail any agendas
- What type(s) of course(s) will staff attend? What classes will staff teach? What type(s) of classes will staff job shadow?

How are the proposed activities going to help address the needs and achieve the goals described in your European Development Plan? In particular, please explain how your organisation will integrate the competences and experiences acquired by staff participating in the project, into its strategic development in the future?

Explain how your planned activities will address the needs and achieve the goals outlined in your European Development Plan. Comment on your plans for dissemination and integration of any tangible outputs. E.g. how will the participants share best practice and knowledge / skills acquired during the activities, how any

new methodologies and curriculum or training improvements will be integrated into everyday activities. Remember to link these back to your project objectives.

Please describe your plans in terms of potential destination countries and hosting partners.

Describe what will be the contribution of the hosting partners you have already identified and why they are a suitable choice to be the hosting organisations.

If you have not yet identified all of your hosting partners, explain how you plan to find suitable host organisations for the mobilities you propose to organise. Please refer to any existing contacts or partnerships that will enable you to successfully find hosts in other countries

Please highlight what expertise and knowledge your partner(s) will bring to the project and why they are a suitable choice to be the hosting organisation(s).

If you have not already identified all of your hosting partners, please outline how you will do so, for example by using your existing networks/contacts, seeking recommendations from other schools/organisations that you work with or by using an online partner finding tool such as eTwinning or EPAL.

List of Activities

The Activities table shows the different types of activities you can apply for: **Job Shadowing, Structured Courses/Training Events and Training Assignments abroad**. To request funding for a specific activity, click on the activity and include the relevant information to calculate the requested grant. If you do not wish to request funding for a specific activity, leave the relevant values at zero.

Click on the symbol next to the relevant activity type in the table to expand the additional sections to input information about Individual Support and Travel.

Please input the number of participants. You can also include the number of 'additional participants' who may receive Travel and Individual Support from another source.

Individual Support

Please estimate the duration of stay for participants requiring an individual support grant.

The grant is calculated based on daily rates for three groups of countries as specified in the Programme Guide and in the web form. The minimum duration for this type of activity is two days (excluding Travel Days). The estimated grant will be automatically calculated based on the information you input in the web form.

You may also request additional individual support for up to one travel day before and after the activity. If you plan to request funds for this purpose, include the additional travel days in your estimated average duration.

Travel

Please remember to include the number of individuals requiring a travel grant, including both participants and accompanying persons.

To estimate the correct travel distances, please use the [European Commission's distance calculator](#)

You will need to enter the number of participants per distance band within this section. If you wish to apply for exceptional costs for expensive travel, please select **Yes** from the drop down menu. Expensive travel is defined as an exceptional cost which can be reimbursed if the standard travel grant is insufficient (i.e. does not cover at least 70% of the actual travel cost). The maximum that can be applied for under this budget category is 80% of the actual travel cost. If you wish to apply for exceptional costs for expensive travel, please click on the 'ADD COST' button and provide a description and justification explaining the need for this cost, as well as the number of participants it relates to and the total amount of grant. Please note that it is not possible to combine the standard travel grant and the exceptional costs for expensive travel for the same person – you can only apply for one type of grant per individual.

The Budget Summary at the bottom of the webpage will auto-calculate the Travel and Individual Support grant.

Important note: For Structured Courses/Training Events, if you have applied for the activity type 'Structured Courses / Training Events' please do not forget to request additional funds to cover course fees if they are required. Please include the number of participants that require course fees and estimate the average duration of their courses to calculate the required grant. **Please note that a single person may receive support for a maximum of 10 days of courses (a total of 700 Euro)** - this limit will be applied automatically and must be respected during project implementation.

Organisational Support

Organisational Support is intended to cover costs linked to the implementation of mobility activities that are not already covered by other budget categories (Travel, Individual Support, Course Fees and Special Costs).

The Organisational Support grant is calculated based on the number of participants in the project: 350 EUR per participant up to the 100th participant, and 200 EUR for each additional participant beyond that.

Organisational support is not provided for accompanying persons.

The Organisational Support budget is auto-calculated in the Application form.

Participants

Participants' Profile

Please describe the profile, background and needs of the participants you plan to involve in mobility activities and explain why you have decided to involve them. If relevant, describe the selection process you plan to use to identify the exact persons who will be supported by the project.

Please provide information about the target group(s) you have identified to participate in the project, including their background and needs. Provide details on how individuals will be selected to take part and if you have already identified individuals to take part, describe any selection processes or criteria used e.g. needs, motivation, and willingness to share results upon return. Selecting individuals should be a fair and transparent process.

Staff

The total number of staff will be shown in the table. Please specify if any of the participants are non-teaching staff and/or have special needs.

Preparation, monitoring and support

What kind of preparation do you plan to offer to participants in mobility activities (e.g. task-related or intercultural training, linguistic support, risk-prevention etc.) and how do you plan to provide it (i.e. who will be delivering the training and in what form, the approximate timing when it will take place etc.)?

Outline the training plan for participants and what training will be provided, when and by whom. Preparation could include activities such as linguistic training, virtual mentoring and/or collaboration with partner schools, briefings, pre-departure assessments, domestic training, job shadowing or teaching assignments and activities.

Useful Tip: Why not ask school pupils to support their teachers and staff with preparation? It is a great way to engage students in the project from the very beginning. Preparation could include in class activities and cooperation with school education staff and their classes overseas. eTwinning is a great tool to facilitate online collaboration throughout the full duration of the project. Why not discover more about the target country with your pupils in class? You could invite pupils to join staff any extra-curricular pre departure language preparation activities. Ask your pupils to set staff challenges or questions to complete whilst are abroad.

What kind of monitoring, mentoring or similar arrangements do you plan to put in place to track the participants' progress and support them during the mobility activities?

Please describe who will monitor the participants' work programme and progress. Describe your strategy for monitoring project implementation and progress, e.g.

- What are your measures for progress?
- Will you conduct pre-departure and post-mobility activities to compare progress? (e.g. questionnaires, interview or assessment).
- How will you record progress?
- Who will be responsible for monitoring and recording individuals' work programmes and progress?
- How will participants track and record their own learning?
- How often will you measure progress and learning?

Learning Outcomes

What kind of learning outcomes do you expect participants to acquire? How are these outcomes going to be assessed?

Please provide information about the learning outcomes to be gained by the participants and how these will be assessed. You should identify the skills, knowledge and behaviour that the mobilities and project activities are designed to improve. These could be many and varied, and will change with each school and project, but there should be a clear link between the aims of your project, the activity and the learning outcomes. They should also be relevant to your participants and address the need you identified for this project.

The Erasmus+ Programme promotes the use of instruments and certificates like Europass and ECVET to validate the learning outcomes acquired by the participants during their experiences abroad. Will your project make use of such European instruments/certificates? If yes, please specify which instruments will be used and how.

Please select which, if any, European instruments/certificates – such as the Europass Mobility Document – you intend to use in your project. This is not compulsory, but it is very much encouraged. For more information on Europass, please visit the [Europass website](#). You can select the types of European Instruments/Certificates from the drop down menu.

In case you are planning to use other forms of validation, such as national validation instruments or certificates, please specify which ones will be used and how.

Please list any national certificates you may be intending to use to certify your learning outcomes and how you will use them. This may be a teacher’s continuing professional development folder or internal certification.

Special Costs

Special Needs Support

This section allows you to request additional costs directly related to participants with disabilities and accompanying persons (including costs related to travel and subsistence, if justified and as long as a grant for these participants is not requested through budget categories “travel” and “individual support”).

Please include the number of participants with special needs, i.e. those who require additional support to aid their participation in the activity, and include a description and justification of these costs in the text box.

Exceptional Costs

Important note: Exceptional costs must be duly justified in the application form. If you are claiming for expensive travel costs, you must justify that the standard funding rules (based on the contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants. Be sure to provide as much information as possible, including estimate of the costs required for domestic travel and how you have reached this amount, description of the route taken to reach the HUB/airport within the country of origin, description of transport of the domestic route to remote final destination from main HUB/airport within the receiving country.

Click on the ADD button to input details of any requested exceptional costs.

Follow-up

This section asks for information about the expected impact of your project as well as dissemination and evaluation activities you plan to carry out.

Useful Tip: For more information about assessing impact and useful resources please visit the ['Impact and evaluation'](#) section on our website. Here you can also find the Impact+ Exercise and it is highly recommended that you review this before completing this section.

What impact do you expect this project to have on your organisation(s)? Please explain how the proposed activities will help address the objectives you have set for this project in relation to your European Development Plan.

Please outline how the project will have an impact on the participating organisation(s). You may wish to consider the impact on:

- Learners
- Staff
- Wider School Network

You should explain the expected outcomes for participants resulting from their mobility, planned learning and active involvement and participation in the project. Examples could include improved knowledge; newly acquired or developed skills and changes in attitude or behaviour. These outcomes may have a further impact on their employment status, role delivery, and ability to access further education, wellbeing or lifestyle.

Please note the most relevant and realistic outcomes for your project. Aside from the impact on individuals, please include the impact you expect the project to have on your school(s) and learners. This could take many forms: perhaps changes in management structure, in curriculum content, in European links, in having a more engaged staff, etc. You should include an estimate in terms of quantity – how many people the organisation intends to reach through implementing the project.

Good projects will look further than just the individual but widen the impact of their activities by supporting the transfer of knowledge across departments, schools and into the wider community or even at a European level.

What benefits do you expect your project will have for your local community and the wider public?

Please describe the positive impact your project activities will have on your local community and the wider public.

How are you going to evaluate if the project's objectives have been met?

You are expected to include a final evaluation of the project, in which your organisation will be able to assess whether (or to what extent) the project has been a success. This evaluation should highlight the

learning outcomes of all involved. We would also encourage evaluation before and during the activity, as well as the final evaluation. This helps with establishing baselines (and therefore seeing what has improved) and fine-tuning the project as it goes.

How will you make the results of your project known inside and outside your organisation(s)? Who are the main target groups you would like to share your results with?

Your application should have a plan in place to share the outcomes of your project. A good dissemination plan will share the concrete results of the project; not just inform people that the project has taken place. What dissemination activities you carry out are up to you. Some of the most common are: presentations, conferences and workshops; creating manuals, booklets or newsletters; creating press releases and giving these to local media; creating new courses or training material; and creating web pages. It should be clear how you will raise awareness, share concepts or solutions, policy or practice through these dissemination activities. You also need to include information about the main target groups you plan to share your results with.

Budget Summary

This is a pre-filled section that provides an overview of the activity type(s) and grant requested under each budget category.

Please note that all information under the 'Budget Summary' tab is read only and will be automatically filled in with the information you have input into the 'Activities' tab. It is imperative that you check that the total grant requested is correct against your own calculations and resolve any issues before submitting your application.

Project Summary

Please provide a clear and concise summary of your project using full sentences. Project summaries should be written in plain, clear English and should be free from jargon. Please make sure you include all the key information from your application form, including the project context, objectives, number and profile of participants, a description of your activities and the expected results, and the potential longer-term benefits.
