KA107 (round 2) 18 month projects: 29 September 2018

This document is Version 1 of the guidance notes for the 2016 Key Action 107 (KA107) Higher Education narrative final beneficiary report.

It has been produced by the Erasmus+ UK National Agency to support beneficiaries in completing and submitting their final report.

The European Commission has also created a video detailing the process of submitting the Beneficiary Report, which is available on the [Manage Your Grant](#) page of the UK Erasmus+ website under the heading 'Reporting'.

Introduction to the Final Beneficiary Report

The European Commission (EC) requires beneficiaries to report qualitatively on mobilities and their participants as well as the management of their project at an institutional level. This report is completed online on Mobility Tool+.

Much of the report is pre-populated with the quantitative and other information that institutions have added to the Mobility+ Tool. Beneficiaries are then asked to make comments on the information presented.

The objective of this final report is to give beneficiaries the chance to emphasise the quality of their project implementation and for the National Agencies (NAs) to get a better picture of both the quantitative and qualitative aspects of the implementation.

The narrative report will also support Higher Education Institutions (HEIs) in identifying their strengths and areas for improvements.

Who is this guide for?

This step-by-step guide is to help UK organisations that have delivered a 2016 Erasmus+ Key Action 1 Learning Mobility of Individuals in Higher Education project complete the mandatory narrative final beneficiary report.

Before beneficiaries begin

Before beginning the narrative report, we recommend completing the following steps:

1. Ensure connection to the internet;
2. Gain access to Mobility Tool+ (**Please use Mozilla Firefox or Google Chrome, not Internet Explorer**);
3. Ensure all mobility data and partner information has been recorded on Mobility Tool+;
4. **Ensure the Organisational Support (OS) figure for the project has been input on the 'Budget' screen;**
5. Ensure all mobility records are complete and no records are saved as draft.

Key information on the Beneficiary Report Form

- The amount of OS funding calculated for a project must be inserted in the 'Budget' tab;

Approved Budget (by National Agency)	Current Budget (in Mobility Tool)	% Current/Approved budget
512.740,00 €	65.568,00 €	12,79 %
47.200,00 €	9800	20,76 %
0,00 €	0	

- Mobility data can be still be edited when the Narrative Report has been generated;
- Spell check only works in Google Chrome and Mozilla Firefox;
- There is a character limit of 5000 characters, including spaces, for each text box;
- Data from inbound students is automatically incorporated into the report. It will automatically update if there are any changes made by inbound participants;
- There is a checklist to the left of the screen. Once a section has been completed a green tick will appear next to that section;
- The checklist to the left of the screen enables quick access to different sections;
- Mobility Tool+ automatically saves progress (select 'Return to Report Page' on left of screen);
- Select 'Release Draft' in the 'Reports' tab once the report has been generated and exit to provide access to other users;
- A Declaration of Honour must be attached and should be signed by the stated Legal Representative.

Assessment of the Beneficiary Final Report

- The maximum score is 100 points;
- Above 75 points: the project is considered very good to excellent in terms of qualitative and quantitative results and these results are worth disseminating more widely. This is considered as best practice example and could be considered for a case study;
- Between 50 and 75 points: the project is considered average to good;

- Below 50 points: there are serious concerns on the compliance with the ECHE and other implementation issues. Such a low score should be applied in exceptional cases. Consequences of the low score are set out in the grant agreement, annex III part B;
- At the end of each assessment criterion, the relevant section in the final beneficiary report and the maximum total points for that question are indicated.

Assessment Criteria

1. Quality of the project implementation - qualitative objectives: the extent to which the original qualitative objectives of the project were met (related to the ECHE commitments and, where applicable, the mobility consortium accreditation) –

Maximum 40 points:

1.1 Did the implementation of the mobility project respect the requirements set out in the ECHE?

(Max 30 points)

In particular, did the beneficiary efficiently implement the following ECHE provisions and how did the beneficiary resolve any related difficulties;

- Support to participants (information, selection, preparation, monitoring and specific support);
- Linguistic support;
- Recognition of learning outcomes;
- Cooperation with transnational partners (setting up of inter-institutional agreements, information, communication).

1.2 The extent to which the outbound and inbound participants were very satisfied or rather satisfied with their mobility experience in general and relevance of the beneficiary's explanations.

(Max 10 points)

1.3 (*Question relating exclusively to consortium projects:*) Did the participating organisations of the consortium effectively and efficiently cooperate and contribute to the project in line with the approved mobility consortium accreditation application? *(Max 5 points while score of 1.1 is reduced to 25 points).*

2. Quality of the project implementation – quantitative objectives: the extent to which the original quantitative objectives of the project were met – Maximum 40 points:

2.1 The extent to which the planned mobility activities (as set out in the grant agreement) were achieved or exceeded and relevance of the beneficiary's explanations. *(Max 30 points)*

2.2 The extent to which the mobility grant budget (as set out in the grant agreement) was efficiently managed by the beneficiary to deliver the planned mobility activities (or even more) and relevance of the beneficiary's explanations. *(Max 10 points)*

3. Impact and dissemination – Maximum 20 points:

3.1 The relevance of the expected impact as described in the section "Learning outcomes and impact". *(Max 10 points)*

3.2 The relevance of the dissemination activities as described in the section "Dissemination of Project Results". *(Max 10 points)*

Throughout this guidance, we highlight which questions are subject to the particular assessment criteria stated above.

Beneficiaries are asked to give information about the objectives met by their project in line with the Erasmus Charter of Higher Education (ECHE). (5000 characters, including spaces)

Beneficiaries are then required to comment on the involvement of their project partners: How did the participating organisation(s) from Partner Country(ies) contribute to the project? Was this as planned in the Inter-Institutional agreement? What experiences and competencies did they bring to the project? (5000 characters, including spaces)

This question is to be assessed as part of Assessment Criterion 1.1 (and 1.3 if a consortium) and 2.1.

5. Implementation of the Project

5.1 Practical Arrangements and Project Management

Under this section, beneficiaries must provide information about all the stages of the project, including quality and management issues related to partner organisations and participants, how practical and logistical arrangements for participants were managed, participant preparation, monitoring and support for inbound and outbound participants and any problems encountered while the project was being implemented and how these were overcome.
